About Perfect Vision

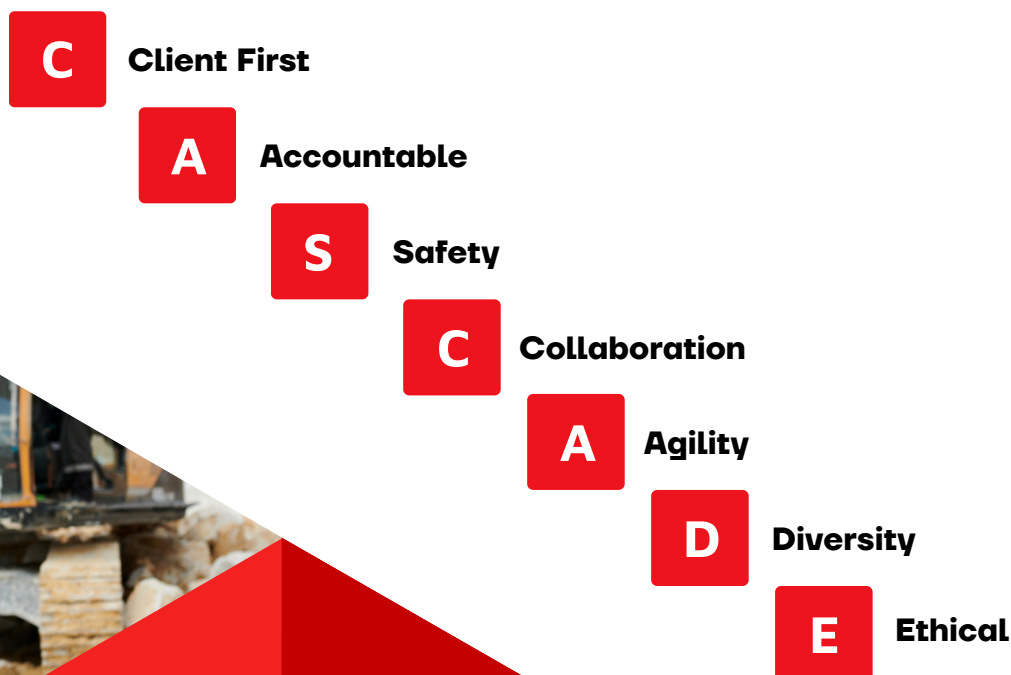

Perfect Vision is a smart high-tech factory that develops and manufactures innovative products and solutions based on the latest technologies of the Fourth Industrial Revolution (4IR), such as IIoT, IoT, AI, robotics, machine learning, big data, analytics, integration, monitoring, customization, edge computing, and immersive technology. Perfect Vision is steadily growing and expanding to fulfil the projects in Saudi Arabia.

World Leader in Technological Transitions for a Sustainable Future.

Leverage the power of path-breaking technologies and deployment of operational excellence with stakeholder engagement to provide cutting-edge solutions, in order to transform lives, advance human progress and protect nature.

Message from the CEO and Managing Director

Dear Stakeholders,

Greetings from Perfect vision.

Perfect Vision is known for its products with world class standards in the safety solutions arena. Starting from basic customization to the most sophisticated AI-Powered Solutions, Perfect Vision's innovative solutions have played an essential role in solving partners' most complex challenges by deeply understanding and addressing their core issues and delivering the best solutions.

We have developed various products in the field of Occupational Health and Safety with first-rate standards to help decrease the odds of worksite accidents while enhancing sustainability. When it comes to accident prevention, precision is everything. Our products are powered by the leading-edge AI/IoT processor and advanced computer algorithms that detect unsafe working with unrivaled accuracy. Our solutions for the construction technology, logistics and transportation industry are the most advanced in the market, with unmatched features that will boost our customers' efficiency and productivity.

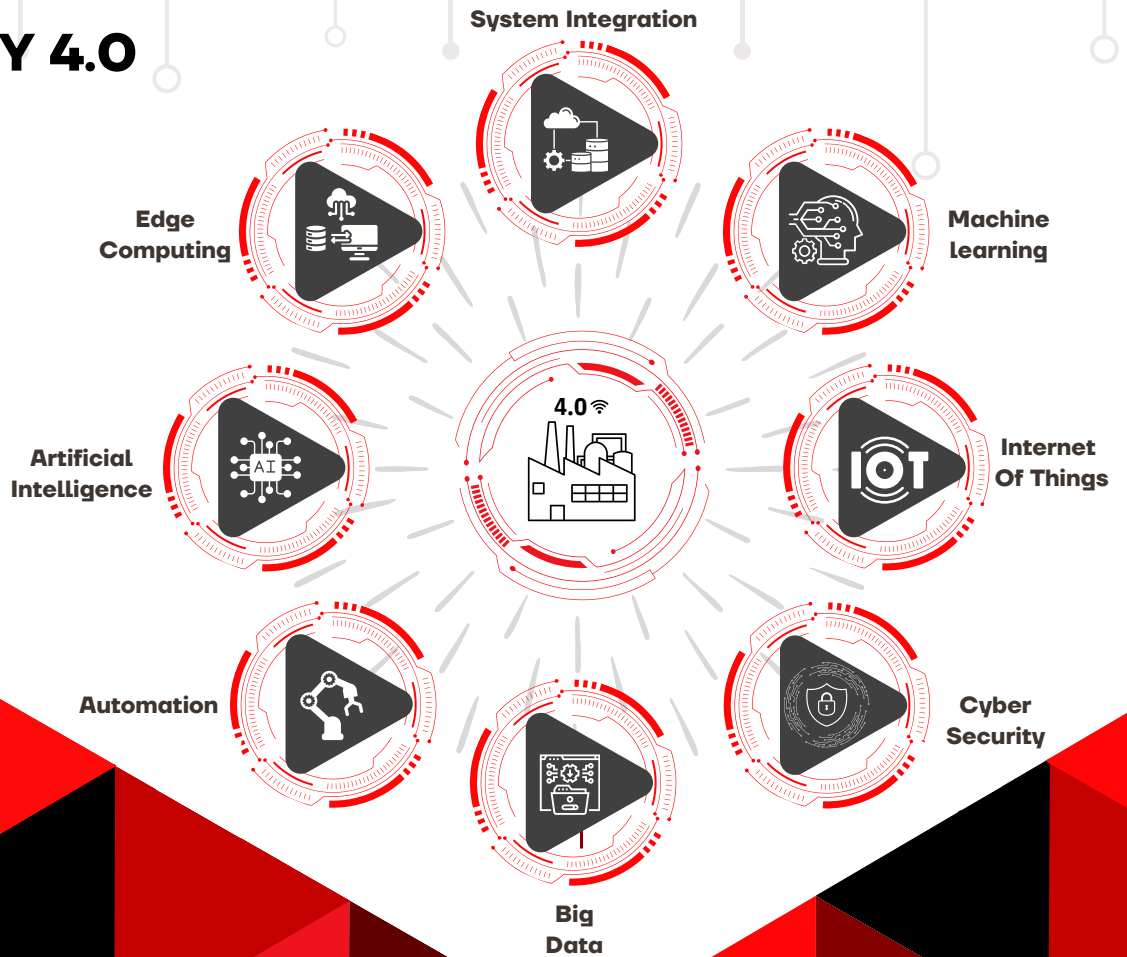

Proudly, our comprehensive range of solutions, including Industrial Internet of Things (IIoT), Artificial Intelligence of Things (AIoT), and Internet of Things (IoT) are being progressively developed in-house under the supervision of Perfect Vision's talented engineers and researchers. By leveraging the power of AI and other latest cutting-edge technologies businesses can create a safer environment for their employees and protect their bottom line.

I welcome you to the world of safe workplace and to be a partner with us in ensuring international safety standards in the workplaces and in our daily life.

Engr. Saleh Awad, CEO & MD

Wish you a safe and happy year ahead

Smart Site Safety System (4S)

ABOUT THE SOLUTION

The (4S) is a groundbreaking site safety solution designed to revolutionize worker protection and prevent accidents. It leverages cutting-edge technology of AI & IoT to create a comprehensive safety ecosystem, safeguarding lives and promoting a culture of proactive risk management.

Boosting Worksite Safety with 4S:

- **Tech-Powered Protection:** The 4S deploys cutting-edge technologies like AI cameras, wearables, and real-time monitoring to proactively mitigate risks, keeping workers safe.
- **Smart Sensors Everywhere:** The 4S deploys a network of intelligent sensors across the entire site, keeping a watchful eye on potential hazards including falling objects, hazardous materials, unsafe working conditions, etc.
- **Connected Worker Protection:** Wearables and smart devices track worker location and health metrics, ensuring their well-being and enabling rapid response in emergencies.
- **Proactive Risk Management:** No more reactive measures. The 4S identifies and predicts potential hazards before they become accidents, preventing injuries and saving lives.

PROXIMITY WARNING & ALERT SYSTEM - PWAS

ABOUT THE SOLUTION

The PWAS employs a cutting-edge technology for worksite safety, utilizing AI algorithms to prevent accidents and enhance worksite safety. Leveraging vehicle to individual (persons) and vehicle to vehicle proximity warnings, our system ensures a safer environment by analyzing data and issuing timely alerts.

Key Features

WHY PWAS?

Workplace injury

142

Workers killed at work in 2020/21

441,000

Workers sustaining a non-fatal injury according to self-reports from the Labour Force Survey in 2020/21

51,211

Employee non-fatal injuries reported by employers under RIDDOR in 2020/21

Estimated self-reported non-fatal injuries, 2020/21

102,000
Injuries with over 7 days absence

339,000
Injuries with up to 7 days absence

Estimated self-reported workplace non-fatal injury per 100,000 workers

Non-fatal injuries to employees by most common accident kinds (as reported by employers), 2020/21

**** Report source: Non-fatal injuries reported under RIDDOR 2020/21**

SYSTEM EXPLAINED:

B-Safe (PWAS) Proximity Warning and Alert Systems are designed to create a safe detection zone around people and vehicles to prevent accidents and promote worksite safety. By utilizing advanced sensor technology, B-Safe systems can accurately detect the proximity of individuals and vehicles; and issue an alarm to warn operators of any potential hazards.

B-Safe offers several types of systems to suit different worksite requirements. These include AI-Based Monitor PWAS, Tag-Based PWAS, Non-Tag-Based PWAS, Forklift PWAS, and Combo PWAS. Combo PWAS is an integrated advanced solution, as it combines both Tag-Based and Non-Tag-Based PWAS technologies into a single system, which offers a high level of flexibility and adaptability to various worksites and client projects' requirements. AI PWAS is the most advanced solution with cutting edge AI Monitor technology that provides wide range of capabilities and extended features.

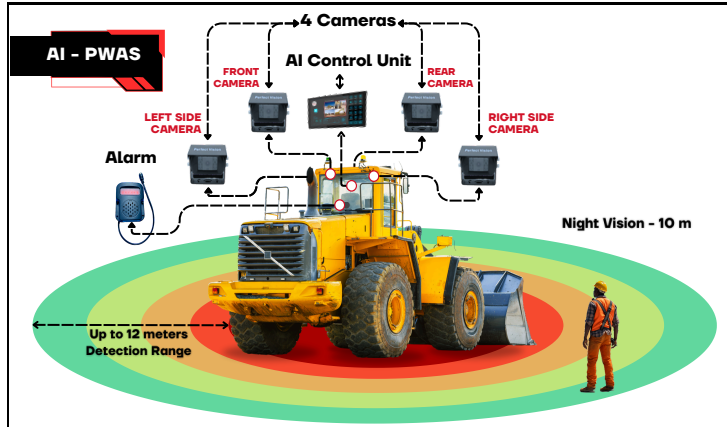

- AI, Tag, Non-Tag, Combo Technology
- AI/IOT Infrastructure
- No Down Time
- Customizable Range
- HSE Report & Tracking

DRIVER MONITORING SYSTEM (DMS)

ABOUT THE SOLUTION

Driver Monitoring System (DMS) is an intelligent system designed to enhance safety and improve the efficiency of a company's vehicle fleet. By utilizing advanced monitoring and analysis capabilities, DMS helps to optimize functionality, productivity and costs associated with operations and maintenance.

COMPONENTS OF DRIVER MONITORING SYSTEM

ADVANCED DRIVER ASSISTANCE SYSTEM

By leveraging the capabilities of the ADAS technology, the driver will have access to a wide range of advanced safety features, including :

- Lane Departure Warning (LDW)
- Forward Collision Warning (FCW)
- Pedestrian Detection Warning
- Overspeed Warning

AI BEHAVIOR MONITORING

AI based camera to monitor various human behaviors, to ensure driver safety.

The camera will detect the signs of fatigue, smoking, and mobile device usage, and the system will alert the driver about potential violations.

Features of DMS

WiFi

GPS

Loop Recording

Live Video Stream

4G / LTE

2 TB HDD

Capabilities of DMS

- GPS Real-Time Combined with Insights
- Enhancing the Safety of the Driver, Vehicle and Pedestrian
- Customized Reports to Improve Efficiency and Reduce Cost
- Better Fuel Consumption
- Improving Vehicle Maintenance
- Optimized and Effective Route Planning

LOAD MOMENT INDICATOR - LMI

ABOUT THE SOLUTION

The **Load Moment Indicator**, matching ASME-B30.14-2015 & ARAMCO STANDARD, has been developed by Perfect Vision for various type of crane safety, especially used for real-time monitoring, preventing the crane from operating under dangerous conditions. This solution can effectively improve the safety of lifting equipment, including side-boom, boom truck, etc.

SMART IoT HELMET

ABOUT THE SOLUTION

At the worksite, helmet is the most important PPE. The digital **Smart IoT Helmet** takes safety to the next level with advanced technology and real-time data on surroundings, providing an all-round protection.

Real-Time Monitoring

Emergency Alert

Heart Rate Detection

Helmet off Alarm

Cloud Connectivity

Live Feed

Fall Down Alarm

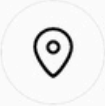

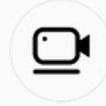

Temperature Detection

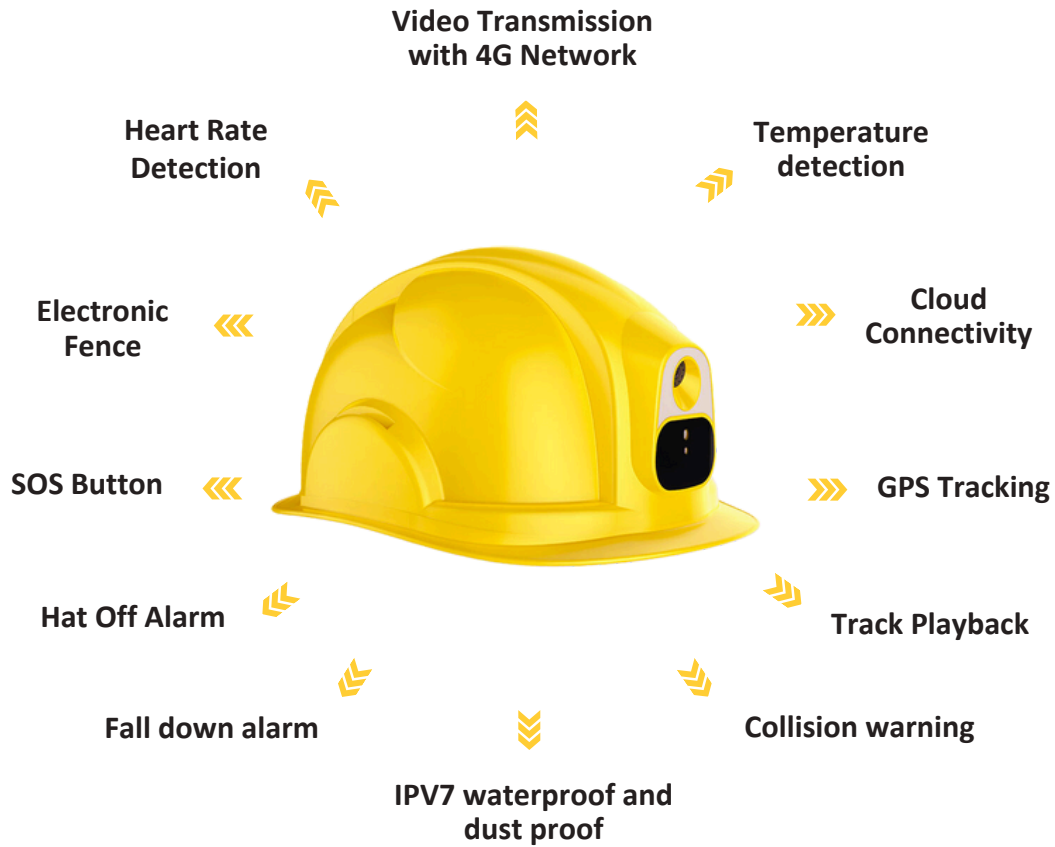

No Response Alarm

IP67 Waterproof & Dustproof

 IP66	 GPS	 Live Streaming	 latitude and longitude	 Visual management	 Laser Point
 Two way Audio	 FO 120°	 1080P	 Android	 PTT	 Video recording

FEATURES OF AI HELMET

APPLICATIONS

PORTABLE GAS DETECTOR

ABOUT THE SOLUTION

The **Portable Gas Detector** will reliably detect several types of gases including LEL, O2, H2S, & CO. The gas sensor can be flexibly selected according to the field requirements. Based on our advanced sensor technology and IP66, the compact design will redefine safety in the most harsh environments.

FEATURES

Detects Multiple Gases

H2S, CO, O2

Confined Space Usage

Dustproof & Waterproof

Type-C USB Rechargeable

Sound, Light, Vibration

PC+ABS+Rubber Protection

Fast Response

Continuous Detection

Portable and light weight

APPLICATIONS

Mining

Steel

Oil and Gas

Power Station

Bio-Gas

AUTOMATIC FIRE SUPPRESSION SYSTEM FOR HEAVY VEHICLE

ABOUT THE SOLUTION

The **Heavy Vehicle Fire Suppression System** is most commonly used for automatic fire detection and extinguish in heavy duty vehicles, industrial equipment, mining, vehicles like truck, tractor, bus, on-road equipment and off-road equipment. Because, they are non-conductive, and can be utilized not only to quell fires in ordinary combustible materials, but also on flammable liquid fires that involve live electrical equipment.

AIR QUALITY MONITORING SYSTEM

PAVING THE WAY TOWARDS NET ZERO

ABOUT THE SOLUTION

The **Air Quality Monitoring System (AQMS)** can measure outdoor air pollutants in real-time, measuring data quickly and accurately. AQMS can be customized for different demands and applications.

All-in-One Solution

Carbon Monoxide

Particulate Matter

O3, NO2, SO2

APPLICATIONS OF AQMS

Oil & Gas, Construction, Smart Cities, Mining & Quarrying, Cement Plants, Recycling Plants, Environmental Compliance Monitoring, Factories & Industrial Fenceline, etc.

Why Choose Perfect Vision Products?

A. Our products are meeting international environmental standards.

We choose high quality raw materials and components in our products, and use world-class manufacturing processes to ensure that our products meet international environmental standards. Our products can withstand the most extreme and harsh environments, thanks to our extensive testing during the development and manufacturing stages in the real workplace settings. We have overcome many challenges to offer the best safety solutions to our clients.

B. We provide excellent services including after sales services with 24/7 Customer Support.

We do not just sell products, we build partnerships. We care about our customers and their satisfaction. That is why we offer after-sale services with 24/7 customer support. Our unparalleled commitment to support our partners is what sets us apart. We are committed to providing excellent services to our customers. Our customer support team is dedicated to resolve any issues pertaining to our products and services, exceeding the expectations of our customers towards customer delight.

C. All features are customizable as required.

Our solutions are the result of our in-house innovation and expertise. Our high-tech labs are manned by highly educated and talented engineers, and researchers who have the know-how to create cutting-edge products and solutions. Whether you need simple system adjustments, additional features, or integration with other solutions, our R&D department will support you to fulfil your requirements.

D. We offer competitive prices.

We believe that quality and price can go hand in hand. Customers often assume that high price means high quality, but that is not always true. Our innovative approach allows us to deliver exceptional quality products with top-notch customer services at very competitive prices.

E. We provide technical training.

We very well know that training is essential to prevent accidents in the worksites. According to HSE studies, about 32% of the accidents are caused by lack of adequate training. This is the reason why we provide appropriate technical training regarding safety solutions to our customers. We ensure that our customers understand and use our safety solutions effectively and safely.

saudi aramco

Saudi Aramco E-Reference No. 0000440

Registration Approval Letter

April 30, 2019

Attention : **PERFECT VISION FACTORY**

Country: **Saudi Arabia**

CR Number: **2055024295**

We are pleased to inform you that PERFECT VISION FACTORY is now registered in the Saudi Aramco Supplier Management System under Vendor Code No. 3004254, provided your company continues to meet all relevant Saudi Arabian and Saudi Aramco standards.

This registration, however, should not be construed as a commitment by Saudi Aramco to procure from you. Being registered as a supplier only grants your company the opportunity, along with other registered sources, to respond to requests for submitting proposals in accordance with Saudi Aramco's established policies and procedures. All procurement instruments including but not limited to service contracts, purchase agreements, or purchase orders will be issued based on the name and address included in your commercial registration (CR), as stated in your Supplier Registration.

Saudi Aramco wishes to remind you that being recognized as a supplier carries with it serious obligations and responsibilities to act in a legal and ethical manner. We wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledged. Failure to abide by the principles set forth in the SCOC can result in adverse actions being taken by Saudi Aramco against you including suspension of you as a supplier. Saudi Aramco also expects each of its suppliers to satisfy each of the requirements of any procurement instrument which might be placed and to act responsibly and reliably as a supply chain supplier. Material Suppliers should apply for Saudi Aramco Supplier Portal access by forwarding a request to portal-registration@aramco.com. The Supplier Portal is the main electronic business tool used between Saudi Aramco and its suppliers and serves to improve the flow and accuracy of key supply chain information.

For further information or assistance please contact the Saudi Aramco Supplier Help Desk by forwarding a request to SupplierHelpDesk@aramco.com or via the unified call center +966 (13) 874-2222.

Dawood Suliman Al Nuwaili, Supervisor
Supplier Registrations & Qualification Unit
Supplier Registrations & Qualification Unit

It is the responsibility of the supplier to update Saudi Aramco Supplier Registration Profile through Arba for the following:

1. Change of Name / Commercial Registration Number / Address / Owner(s)
2. Any change of the supplier location
3. Discontinue supply of approved commodities (PCOMs and ICATs)

This is an electronically generated letter by Saudi Aramco. To verify Supplier approval status, please contact Supplier Help Desk at supplierhelpdesk@aramco.com
